

The diagram illustrates two tables representing data from different locations. The left table shows data for Aartselaar, Antwerpen, Boechout, Boom, and Borsbeek. The right table shows data for Borsbeek. A double-headed arrow below the left table is labeled 'parameter', and a double-headed arrow between the top and bottom rows of the right table is labeled 'geslacht'.

Aartselaar		
	#	%
♂	7089	49.6
♀	7204	50.4

Antwerpen		
	#	%
♂	21	50.1
♀	14	49.9
